COMMENTS:

The roads are not capable if facilitating a school, the bus route alone causes chaos on the road with just residents and visitors parking on the road. If you add in parents doing school drop off and pick up included in that it is going to be complete chaos! It is also to close to Alder Grove school. I feel as if the school would be beneficial but this is not the best location to cater for this. I strongly object to the plans and would have loved to have seen nature be preserved in the area and the area could be a great woodland walk.
