COMMENTS:

I strongly object to the proposed planning permission for the development in my local area. This project will significantly disrupt the daily lives of residents by increasing traffic congestion, noise pollution, and overall environmental disturbance. The additional heavy vehicle movement will not only make roads more dangerous but also lead to higher levels of air pollution, impacting public health.

Furthermore, the increased noise from lorries and construction will reduce the quality of life for those living nearby, particularly for families with young children. This development does not align with the needs of local residents and will have a long-term negative impact on the community. I urge the planning committee to reject this proposal in favor of solutions that prioritize the well-being of existing residents.
