

Consultation response – 250267

FAO: Sir or Madam

Email: planning.enquiries@wokingham.gov.uk

Dear Sir or Madam,

Our ref: 507805

Your ref: 250267

Thank you for your consultation.

Natural England has previously commented on this proposal and made comments to the authority in our response dated 6th March 2025, reference number 504545. This response does not appear on the Wokingham Borough Council consultation website. Please could this be added for reasons of full and open information. (Attached for your convenience).

The advice provided in our previous response applies equally to this re-consultation.

The information we requested is still needed by Natural England to determine the significance of impacts on designated sites. Without this information Natural England may need to object to the proposal.

Please note we are not seeking further information on other aspects of the natural environment, although we may make comments on other issues in our final response.

Please re-consult Natural England once this information has been obtained. On receipt of the information requested, we will aim to provide a full response within 21 days of receipt.

Yours faithfully

Mrs Sally Ireland

Dear Sir/Madam

Planning consultation: Demolition of the existing dwelling and use of land as an extension to Victoria Gardens Residential Park Home Estate, with the stationing of 35 park homes (permanent C3 use class accommodation) and the construction of ancillary community building (use class F2(b)) and park office (use class Eg(i))

Location: 31 Barkham Ride, Wokingham, RG40 4EX

Thank you for your consultation on the above dated 26 February 2025 which was received by Natural England on 26 February 2025.

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

SUMMARY OF NATURAL ENGLAND'S ADVICE

FURTHER INFORMATION REQUIRED TO DETERMINE IMPACTS ON DESIGNATED SITES

The proposed development has the potential to have a harmful effect on terrestrial Sites of Special Scientific Interest (SSSIs) and those Special Areas of Conservation (SACs), Special Protection Areas (SPAs) or Ramsar sites that they underpin.

Natural England's statutory advice on these potential impacts is set out below.

Designated Sites

Further information required - recreational pressure impacts to European Sites (habitats sites)

This development site is within the zone of influence (Zoi) for recreational pressure impacts to one or more European Sites (habitats sites).

Within this Zoi, proposals for any net increase in residential units will have a likely significant effect on the qualifying features of the European Site(s) (habitats site(s)) through increased recreational pressure when considered either alone or in combination with other plans and projects.

Your authority has measures in place to manage these potential impacts through a strategic solution which Natural England considers will be effective in preventing adverse impacts on the integrity of the site(s).

Notwithstanding this, Natural England advises that these measures should be formally checked and confirmed by your authority, as the competent authority, via an **appropriate assessment** in view of the [Natural England Access to Evidence - Conservation Objectives for European Sites](#) and in accordance with the Conservation of Habitats & Species Regulations 2017 (as amended).

Providing the appropriate assessment concludes that the measures can be secured, it is likely that Natural England will be satisfied that there will be no adverse effect on the integrity of the European Site(s) (habitats site(s)) in relation to recreational disturbance.

Where the proposal includes bespoke mitigation that falls outside of the strategic solution, Natural England should be consulted.

Reserved Matters applications, and in some cases the discharge/removal/variation of conditions, where the permission was granted prior to the introduction of the strategic approach, should also be subject to the requirements of the Conservation of Habitats & Species Regulations 2017 (as amended) and our advice above applies.

Discretionary Advice

Natural England may provide further advice to the applicant through the discretionary advice service (DAS). Refer to [Developers: get environmental advice on your planning proposals - GOV.UK \(www.gov.uk\)](#) for more information.

Other Advice

Priority Habitats and Species

Priority Habitats and Species are of particular importance for nature conservation and are included in the England Biodiversity List published under section 41 of the Natural Environment and Rural Communities Act 2006. Most priority habitats will be mapped either as Sites of Special Scientific Interest, on the Magic website or as Local Wildlife Sites. A list of priority habitats and species can be found on [Gov.uk](#).

Natural England does not routinely hold species data, such data should be collected when impacts on priority habitats or species are considered likely. Consideration should also be given to the potential environmental value of brownfield sites, often found in urban areas and former industrial land, further information including links to the open mosaic habitats inventory can be found [here](#).

Impact Risk Zones for Sites of Special Scientific Interest

We publish Impact Risk Zones for Sites of Special Scientific Interest (SSSI IRZs), a GIS-based tool designed for use during the planning application validation process to help local planning authorities to determine if a proposed development is likely to affect a terrestrial SSSI and when to consult Natural England. For more information and to access the SSSI IRZs and user guidance, please visit the [Natural England Open Data Geoportal](#).

Further general advice on the consideration of protected species and other natural environment issues is provided at Annex A.

We would be happy to comment further should the need arise but if in the meantime you have any queries, please do not hesitate to contact us.

For any queries regarding this letter, for new consultations, or to provide further information on this consultation please send your correspondences to consultations@naturalengland.org.uk.

Yours faithfully

Samuel Norton
