COMMENTS:

This appalling new development in our beautiful 'village' falls within the AWE DPEZ putting further lives at risk if the worst should happen.

Have a severe Impact on neighbours of century drive and many houses on Hyde end road. Loss of privacy due to overlooking, Overshadowing or loss of light to nearby properties, Increased noise, traffic, or other disturbances.

Environmental and Heritage Concerns such as Harm to protected trees, wildlife, or natural habitats, Risk of flooding, pollution, or other environmental harm.

Water displacement means rainfall has to go somewhere... no doubt heading towards existing residents.

We already have overdevelopment in the form of Croft gardens and shinfield meadows - we DO not need anything further to congest our roads and local services.

Look elsewhere in the Wokingham borough and leaving our parish alone.
