Contaminations Statement

Client; Wokingham BC C/O Faithfull + Gould

Site, Carnival swimming pool

Date; 05.10.2020

We can confirm during our works onsite, no suspected asbestos containing materials were found within the fabric of the building.

During the excavations of the sub structures now visible contaminations were found, no odors we noted omitting from any of the soils.

It is our belief there is no impacted soils remaining on the site.

Please note the substations is still to be removed and there were areas of hard standing that were retained. So the above statement excludes these areas.

Yours Faithfully

*Richard Harris
Demolition Manager*

DEMOLITION - ASBESTOS REMOVAL - TIPPER HAULAGE - RECYCLING
