COMMENTS:

I do not object to this extension, but would like a caveat around parking of works vehicles near the site. The road to the left of the property as you look at the front elevation has to be kept clear and no cars or vans parked next to the hedge, immediately past the garage of the property concerned. There is a tight corner to reach our property at the end and when vehicles, especially large ones are parked next to the hedge extending from 53 to the corner of 52, it can cause issues. We also have a visitor space opposite the garage at 53 which needs to also be kept clear for visitors and not work vehicles. We also put our bins out near the hedge so any parking there would cause issues on bin day. I hope due consideration has been made for parking of the owners vehicles and the works vehicles during this work. To be clear, I have no objection to the work, just the vehicles as this has caused issues before (not by 53 however) but it is good to mention these things before work goes ahead. I can provide a picture to illustrate my point if required.
