Overlooking & lighting-right analysis

1 : 200

* The distance between the extended bathroom window and the house No 4's window is 14.7m, that is slightly shorter than 15m, but this bathroom window will use frosted glass to prevent overlooking.

* The side door with window of the house No 2 won't be affected by the 45° rule of lighting right as the south-west external wall of the house No 3 is before the position of the door with window of the house No 2.
