- ☐ Objection due to the reason(s) **stated below**

Comments On Proposal

Discharge of Condition

LLFA received this Application for submission of details to comply with the following condition of planning consent 241539 dated 31.10.2024. Condition 3 relates to drainage details; 4 to foul drainage details; 11 to cycle parking; 13 to electric bicycle on 20th January 2025.

I refer to the above planning application, which LLFA conditioned due to insufficient detail provided in Surface water Drainage strategy. Following further correspondence with the applicant and their subsequent submission of surface water drainage details along with Foul drainage which shows location of (SuDS) it is now confirmed that the revised proposal meets the requirements of application for which LLFA is statutory consultee. All SuDS features to be maintained according to the manufacturer's recommendations. It is responsibility of the applicant to inform LLFA if there is any change in surface water design at construction stage.

It is recommended that condition no. 3 and 4 related to surface water drainage may now be discharged.
