COMMENTS:

I would like to object to this planning application. The proposed development is outside the current development boundaries and will reduce significantly the 'green' buffer between Finchampstead and Eversley. It will also take place next to the newly reclaimed land which is being returned to wildlife habitat and have a significant effect on the success of this project.

I also believe that there is little infra-structure such as public services to support this development and 40 extra houses will increase greatly the amount of traffic on an already busy village road.
