COMMENTS:

Formal objection to the proposed footpath off Canberra Lake Way, Charvil.

As a frequent visitor to my daughter at No. 10, I see this proposal as detrimental to the area.

It is a very safe area for children to play and the residents respect this.

If this planning application were to proceed then volume of traffic would increase, footfall between Nos. 10 and 11 would also increase. The privacy of those particular houses and of those nearby would be lost.

With no physical boundary on part of No. 10, then security becomes an issue and this is unacceptable.

I strongly object to this proposal.
