COMMENTS:

I would appreciate if you could be good neighbours during the construction of this dwelling and not block access to our driveway, or block the view of the road with vehicles making access more difficult. It is a 40 mile an hour road and if vehicles are parked outside our property it makes it dangerous for us to enter the carriageway.

We have already experience this with only one small van during the clearing of the land next to our house, so would appreciate if any vehicles are not parked directly outside our property, as the driveway is in constant use.

Thank you
