

PLANNING REF : 241959
PROPERTY ADDRESS : 6 Perth Close
: Woodley
: RG5 4TU
SUBMITTED BY : Mr And Mrs Michael & Wendy Tarling
DATE SUBMITTED : 04/08/2024

COMMENTS:

In 1977, John L Hicks built a nine house development in Perth Close. All properties were presented externally in brick and facing tiles with appropriate fenestration.

This appearance has been maintained since then by all occupants, including the building of extensions.

The development of 6 Denmark Avenue (originally 9 Perth Close) now being undertaken, is in breach of initial planning approval. This new Application seeks to retrospectively allow for the reduction in the size of windows, cover the entire existing brickwork in off-white K-render and states slate roof tiles. This will destroy the existing character of Perth Close and disregards the initial planning submission and WBC approval for limited extension. Work has continued with no regard to Planning Approval presumably on the assumption of success with this new submission.

We ask you to PLEASE give our objection your due consideration and enforcement. This directly concerns an established neighbourhood.
