COMMENTS:

The streets surrounding Radstock school are already congested at pick up and drop off; the roads are narrow and in the case of Northbourne Close this is a main thoroughfare for those children who walk to

school; a road with no pavements forcing the children to walk in the middle of the road. Many parents already drive and park in the neighbouring streets. In addition civilian staff from the Police Station also park in Thanington Way. These small roads cannot cope with additional traffic.

Please note: The plans show Northbourne Close as being approximately 500 metres from the school site when in fact the footpath going through Northbourne Close is directly opposite the back gate to the school.
