Dear Helen,

Please find attached updated drawings for the above application reflecting:

- Additional drainage information. The position of the package treatment plant and the route for water to flow under the access road. We believe the detailed design of both items if agreeable in principle could be conditioned.

Also Attached is a flood risk assessment highlighting the risk is primarily egress from the site in the event of surface water flooding and a suitable safe escape route is available.

Further information on the outstanding concerns should be issued later today.

In the meantime if you have any queries please do not hesitate to contact me.

Yours sincerely,

Roger Harrison
Director

for and on behalf of Harrison McAfee Ltd
