A photograph of a window with a white frame and black bars, set in a brick wall. The window is partially covered by a dark metal grate.

A photograph of a window in a room with peeling paint and debris on the floor. The window is a double-hung style with white frames and is set into a wall where the paint is significantly peeling and cracked. The floor is covered with a layer of dust and small pieces of debris. The overall condition of the room suggests it is in need of renovation or repair.

A photograph showing a dense thicket of trees and vines. Several thick, light-brown tree trunks are visible, some with small, dark, circular holes or knots. A large, green, feathery fern frond is prominent in the upper right. In the background, a white-painted wooden structure, possibly a window frame or door, is partially obscured by the foliage. The overall scene is lush and overgrown.
