- ☒ No objection
- ☐ No objection subject to conditions (and reasons) **stated below**
- ☐ Request further information before determination as **stated below**
- ☐ Objection due to the reason(s) **stated below**

Comments On Proposal

Discharge of Condition

I refer to the above planning application, which LLFA conditioned due to insufficient detail provided in Surface water Drainage strategy.

Following further correspondence with the applicant and their subsequent submission of surface water drainage details along with drawing no. 23-104-22D - Below Ground Works Plan which shows existing property is not on mains drainage, there is a currently a soakaway for surface water and a septic tank for foul water. Also, which shows location of SuDS it is now confirmed that the proposal meets the requirements of application for which LLFA is statutory consultee. All SuDS features to be maintained according to the manufacturer's recommendations. It is responsibility of the applicant to inform LLFA if there is any change in surface water design at construction stage.

It is recommended that condition no. 4 related to surface water drainage may now be discharged.
