COMMENTS:

I do not object to the desire to have a place of worship, but just not in this location. The proposed space is a business unit which I believe only has 14 parking spaces. The proposal for use of public transport is dangerous as would encounter crossing a busy road and could be a safety issue. The additional noise issues caused by celebrations and prayers could have an impact on the businesses.

I believe that there is a more suitable location for this place of worship and just not at the proposed place.
