COMMENTS:

The reasons for objecting are the usual refusal subjects that get swept under the carpet and completely ignored , previous planning objections on other local sites confirm this.

I must say Spencerswood has had more than its fair share of influx in house/flats etc in the past 5years or so. It's shocking to the eye of how many dwellings that have gone up and stolen the beauty of the village, which in turn forces the wildlife in to pathways of traffic which causes devastation and death. Pushing these beautiful creatures out of their homes and for what , for the wrong reasons. Crime rate will increase that's a cert. The extra Traffic and the local pollution this will have on the locals old and young. Put a drs , hospital and dentists these things would be most acceptable and a recreation area would be kinder to the beautiful countryside on the edge of the village this is what is more needed than houses.

Let another village somewhere else that hasn't got half as many houses as Spencerswood have its share give the village a rest. I back on to the adjoining fields and this will have some negative affect on me me and my family Now and in the long term. This new proposed area will be disappointing for the village and ruin a beautiful view across not many remaining fields left in Spencerswood.
