COMMENTS:

I wholeheartedly support the planning permission for the proposed mosque in Wokingham, as it will be a valuable addition to the community, enriching its cultural and social fabric. This mosque will not only serve as a dedicated place of worship for the Muslim community but will also function as a center for interfaith dialogue, cultural exchange, and educational programs. It will provide a welcoming space where residents from diverse backgrounds can come together to learn, share experiences, and build strong community ties. Additionally, the mosque will play a vital role in promoting inclusivity, fostering mutual respect, and encouraging social cohesion by creating opportunities for engagement across different faiths and cultures. By embracing this initiative, Wokingham can further demonstrate its commitment to diversity, unity, and a harmonious society where all individuals feel valued and included.

Additionally, as Muslims are required to offer prayers five times a day, having a dedicated mosque will provide a convenient and accessible space for daily worship. This will allow community members to practice their faith in a peaceful and structured environment while strengthening their spiritual connection. By approving this initiative, Wokingham will further demonstrate its commitment to embracing different cultures, strengthening community bonds, and ensuring a sense of belonging for all.
