COMMENTS:

I strongly oppose the development of a religious community center in Winnersh due to existing traffic congestion, flooding, and strain on local infrastructure. Additional large gatherings will only worsen these issues, disrupting residents and businesses.

The council should prioritize sustainable development, economic opportunities, and public services that benefit the wider community. Instead of placing undue strain on our town, an alternative location outside residential areas should be considered.

Winnersh must remain a balanced, peaceful, and inclusive place for all. I urge the council to reject this proposal.
