COMMENTS:

I support the establishment of an Islamic centre, as it provides a space for unity, belonging and mutual support. It allows Muslims to practice their faith openly, fosters cultural exchange and promotes understanding across communities. Additionally, it will serve as a valuable resource for education, social services and engagement, benefiting both the Muslim community and society at large. This centre will specifically benefit the people of Winnersh and Wokingham, where such a facility is currently lacking, helping to build stronger, more inclusive communities where all backgrounds can live in harmony.
