DRAWING: 3112-01-01

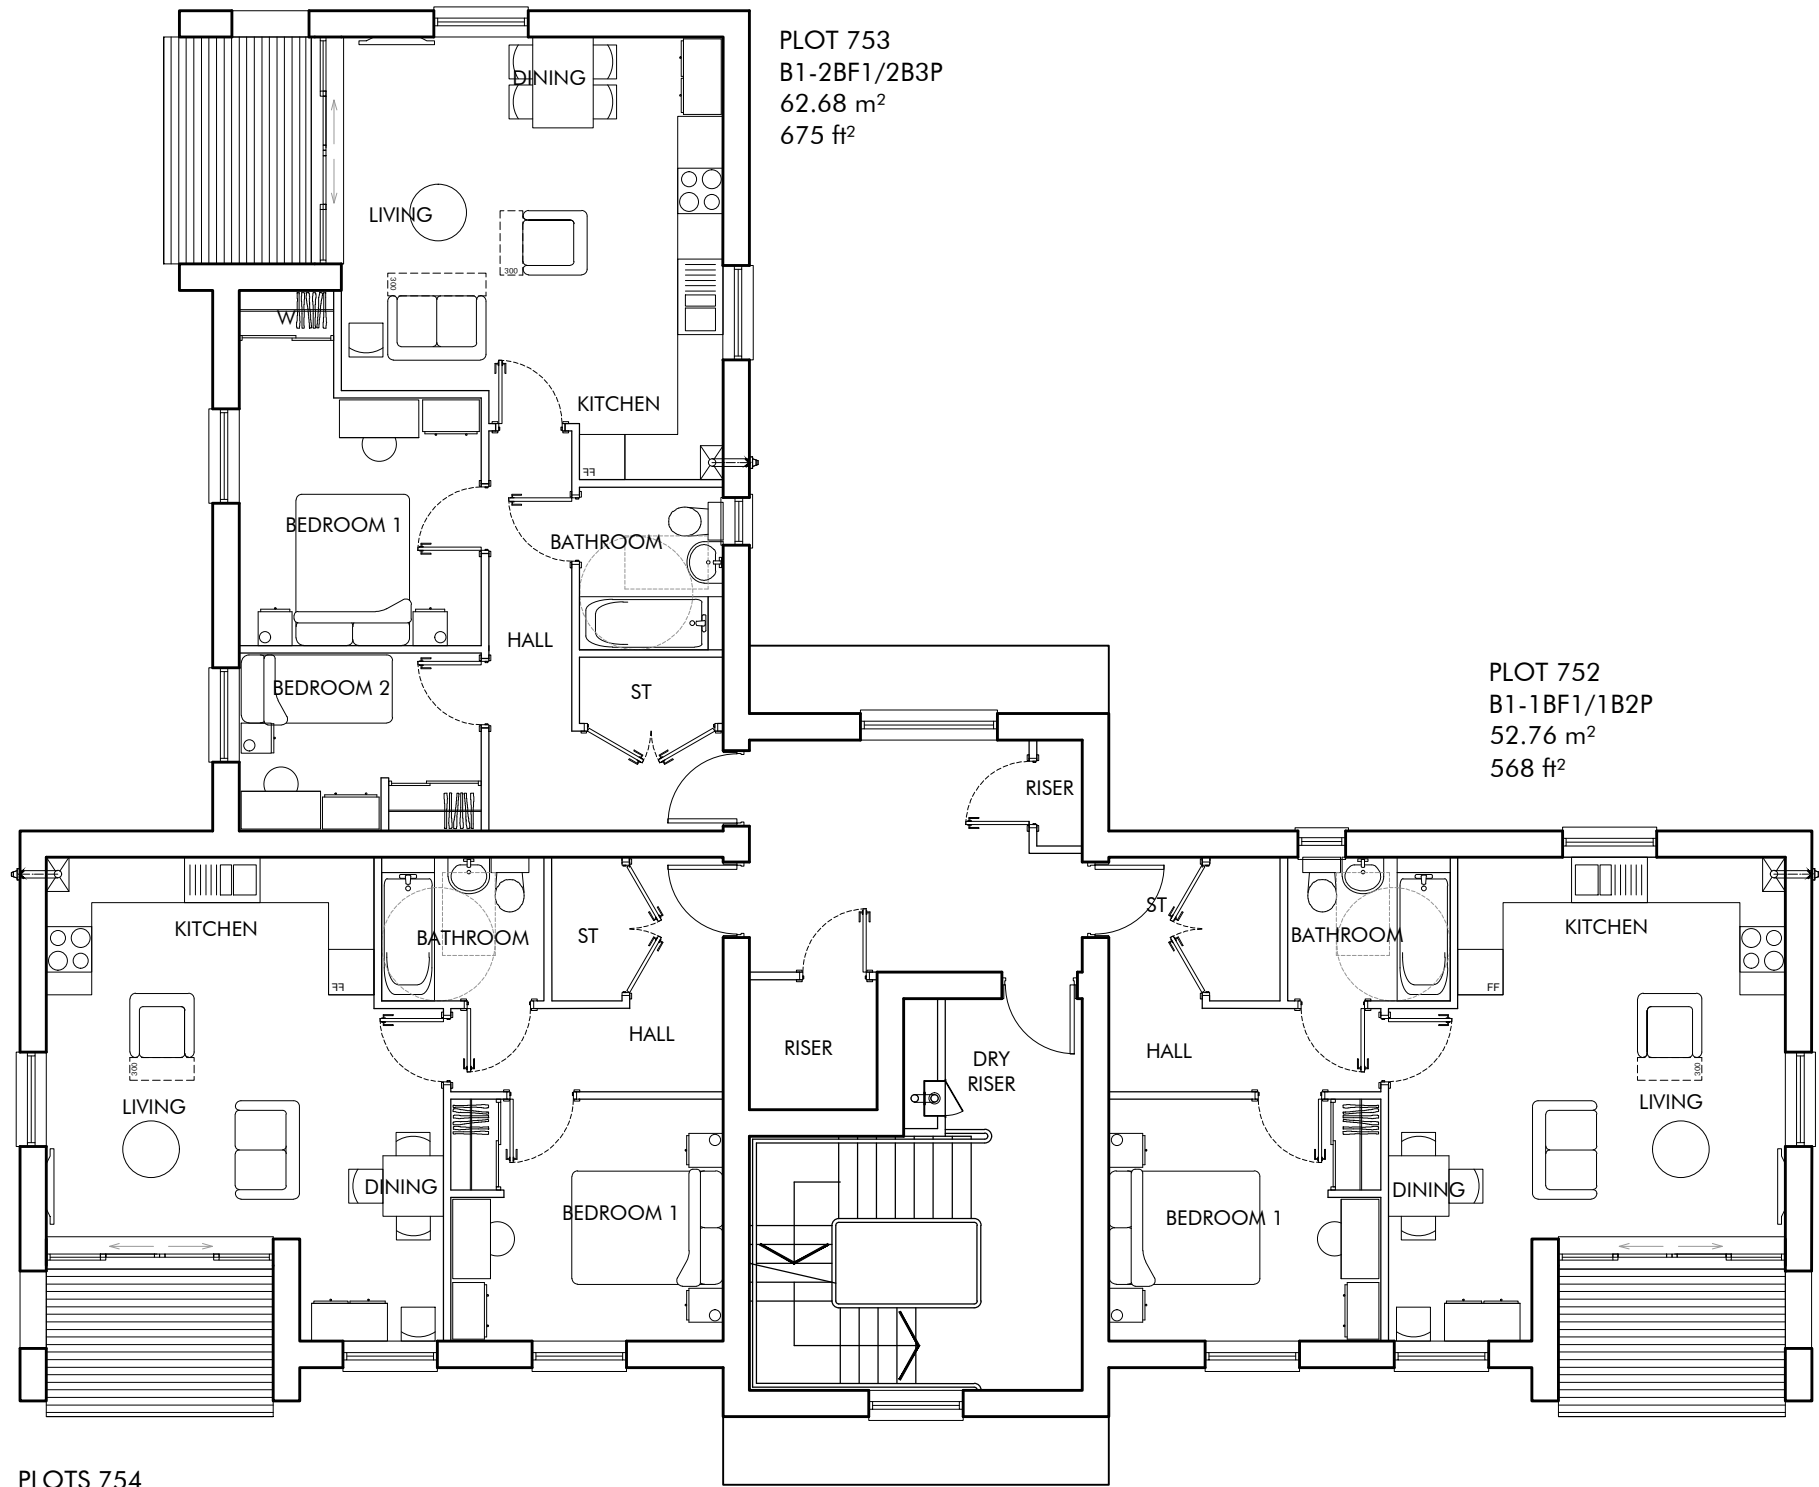

This is a detailed architectural elevation drawing of a three-story residential building. The structure features a series of gabled roof sections and flat-roofed connecting wings. The facade is composed of light-colored walls, possibly stucco or concrete, with dark window frames. The building has multiple windows, including small square windows, larger multi-paned windows, and large glass doors. Several balconies with glass railings are visible on the second and third floors. The drawing is a black and white line art style, showing the building's form and structural details. The ground level is indicated by a solid black line at the bottom.

This is a black and white architectural elevation drawing of a building facade. The facade is composed of three main sections: a central gabled section and two long, flat sections on either side. The central gabled section is the tallest part of the building. The left flat section features three balconies, and the right flat section features four balconies. The drawing is a line art representation, showing the outlines and structural details of the building. The balconies have railings, and the windows are indicated by simple lines. The overall style is clean and technical, typical of architectural drawings.
