COMMENTS:

As a resident of Hurst for 32 years I wish to object to some of the details of the above planning application:

The entrance to the proposed carpark for 15 cars is right opposite the Tape Lane exit onto School Road, which is potentially dangerous. Bus no 128 uses School Road on its route from Wokingham to Reading, which is really busy at school drop-off & pick-up times, so this will be difficult with construction vehicles also using the road for access to the site, plus extra residents' cars once the site is finished.

The house designs are out of keeping with the rest of Hurst, with dark weather-boarding and dark window frames.

Flooding is a huge problem in Hurst and this has not been adequately considered.
