Planning History :
The campus has had a large number of alterations and new developments.

Planning Issues :
Site Designation: Employment University of Reading WEM5 & 6.

1. Impact upon the character and appearance of the surrounding area.

Application Number: F/2000/1613

Appraisal :

1. **Impact upon the character and appearance of the surrounding area.**

The proposed development is for the erection of a pedestrian link bridge at first floor to connect the dept. of Plant Science and Food Studies and to replace the existing louver plant rooms with new louvered plantrooms. There are also soleils to provide shade to the windows. The replacement louver plantrooms and soleil screens are in keeping with the character of the existing building and the wider area.

The proposed first floor footbridge would help to improve pedestrian link between two existing structures. The Food Studies dept. is a four storey building. The Link Bridge would join the east side elevation at the first floor. The vertical supports would continue above the main structure of the bridge to the third floor. The bridge would then continue on to the east to cross the existing road. It would then turn to the south, to cross another road and to connect with the Plant Science building. This section of the Plant Science building is only two storeys in height. While the proposed vertical supports would project above the main structure they would be largely viewed against the background of the Food Science and the research center building.

Therefore the proposed development would have no significant detrimental impact upon the character or appearance of the surrounding area.

1769d

YOUR PLANNING APPLICATION

WHY DO YOU NEED TO MAKE A PLANNING APPLICATION ?

New buildings, major alterations and enlargement of existing buildings, and many changes in the use of buildings and land need planning permission.
The Town and Country Planning Acts impose a duty on Local Authorities to control these changes, and this means that a balance has to be found between the need and pressure for change, and the desire to protect the character of settlements and the countryside.
The merits of each application are, therefore, carefully examined.

WHAT ELSE MAY YOU HAVE TO DO ?

Listed Building Consent:	for works to a Listed Building; or for demolition works on land within the curtilage of a Listed Building or within a Conservation Area.
Advertisement Consent:	for the display of advertisements or signs
Building Regulation Approval:	for most new building or construction work.

Special forms are available for these types of applications.

You should also check whether there are any other regulations with which you may need to comply.

WHAT HAPPENS TO THE APPLICATION ?

It will first be checked to see if it is complete and if it is, it will be registered.

Consultations will be carried out with public and other bodies, such as the Highway Authority, or Local Parish Councils.

Publicity may be given to allow local people the opportunity to comment on your proposals.

The application will be considered in relation to the Council's planning policies and guidelines, the past history of decisions on that site or in the locality, other standards (such as parking, or visibility at road junctions), and any other material considerations.

The site will be visited by a Planning Officer You may be asked to submit more information, or to amend your application.

The application will then be considered either by a Planning Committee or Sub Committee (made up of Councillors) or by the Chief Officer responsible for planning matters. Objections to an application will be taken into consideration by the Committee or the Chief Officer.

Shortly after the application has been determined, you will receive a Decision Notice.

HOW LONG WILL IT TAKE ?

An application will generally be determined within eight weeks although a longer period may sometimes be required for a complicated application.

WHAT SORT OF DECISION CAN BE MADE ?

Your application may be approved.

Your application may be approved subject to certain conditions. These could impose restictions on the use of land or buildings, or require further details to be approved at a later stage, (e.g. materials or landscaping).
You may appeal against the conditions, but this opens the entire permission to review by the Secretary of State.

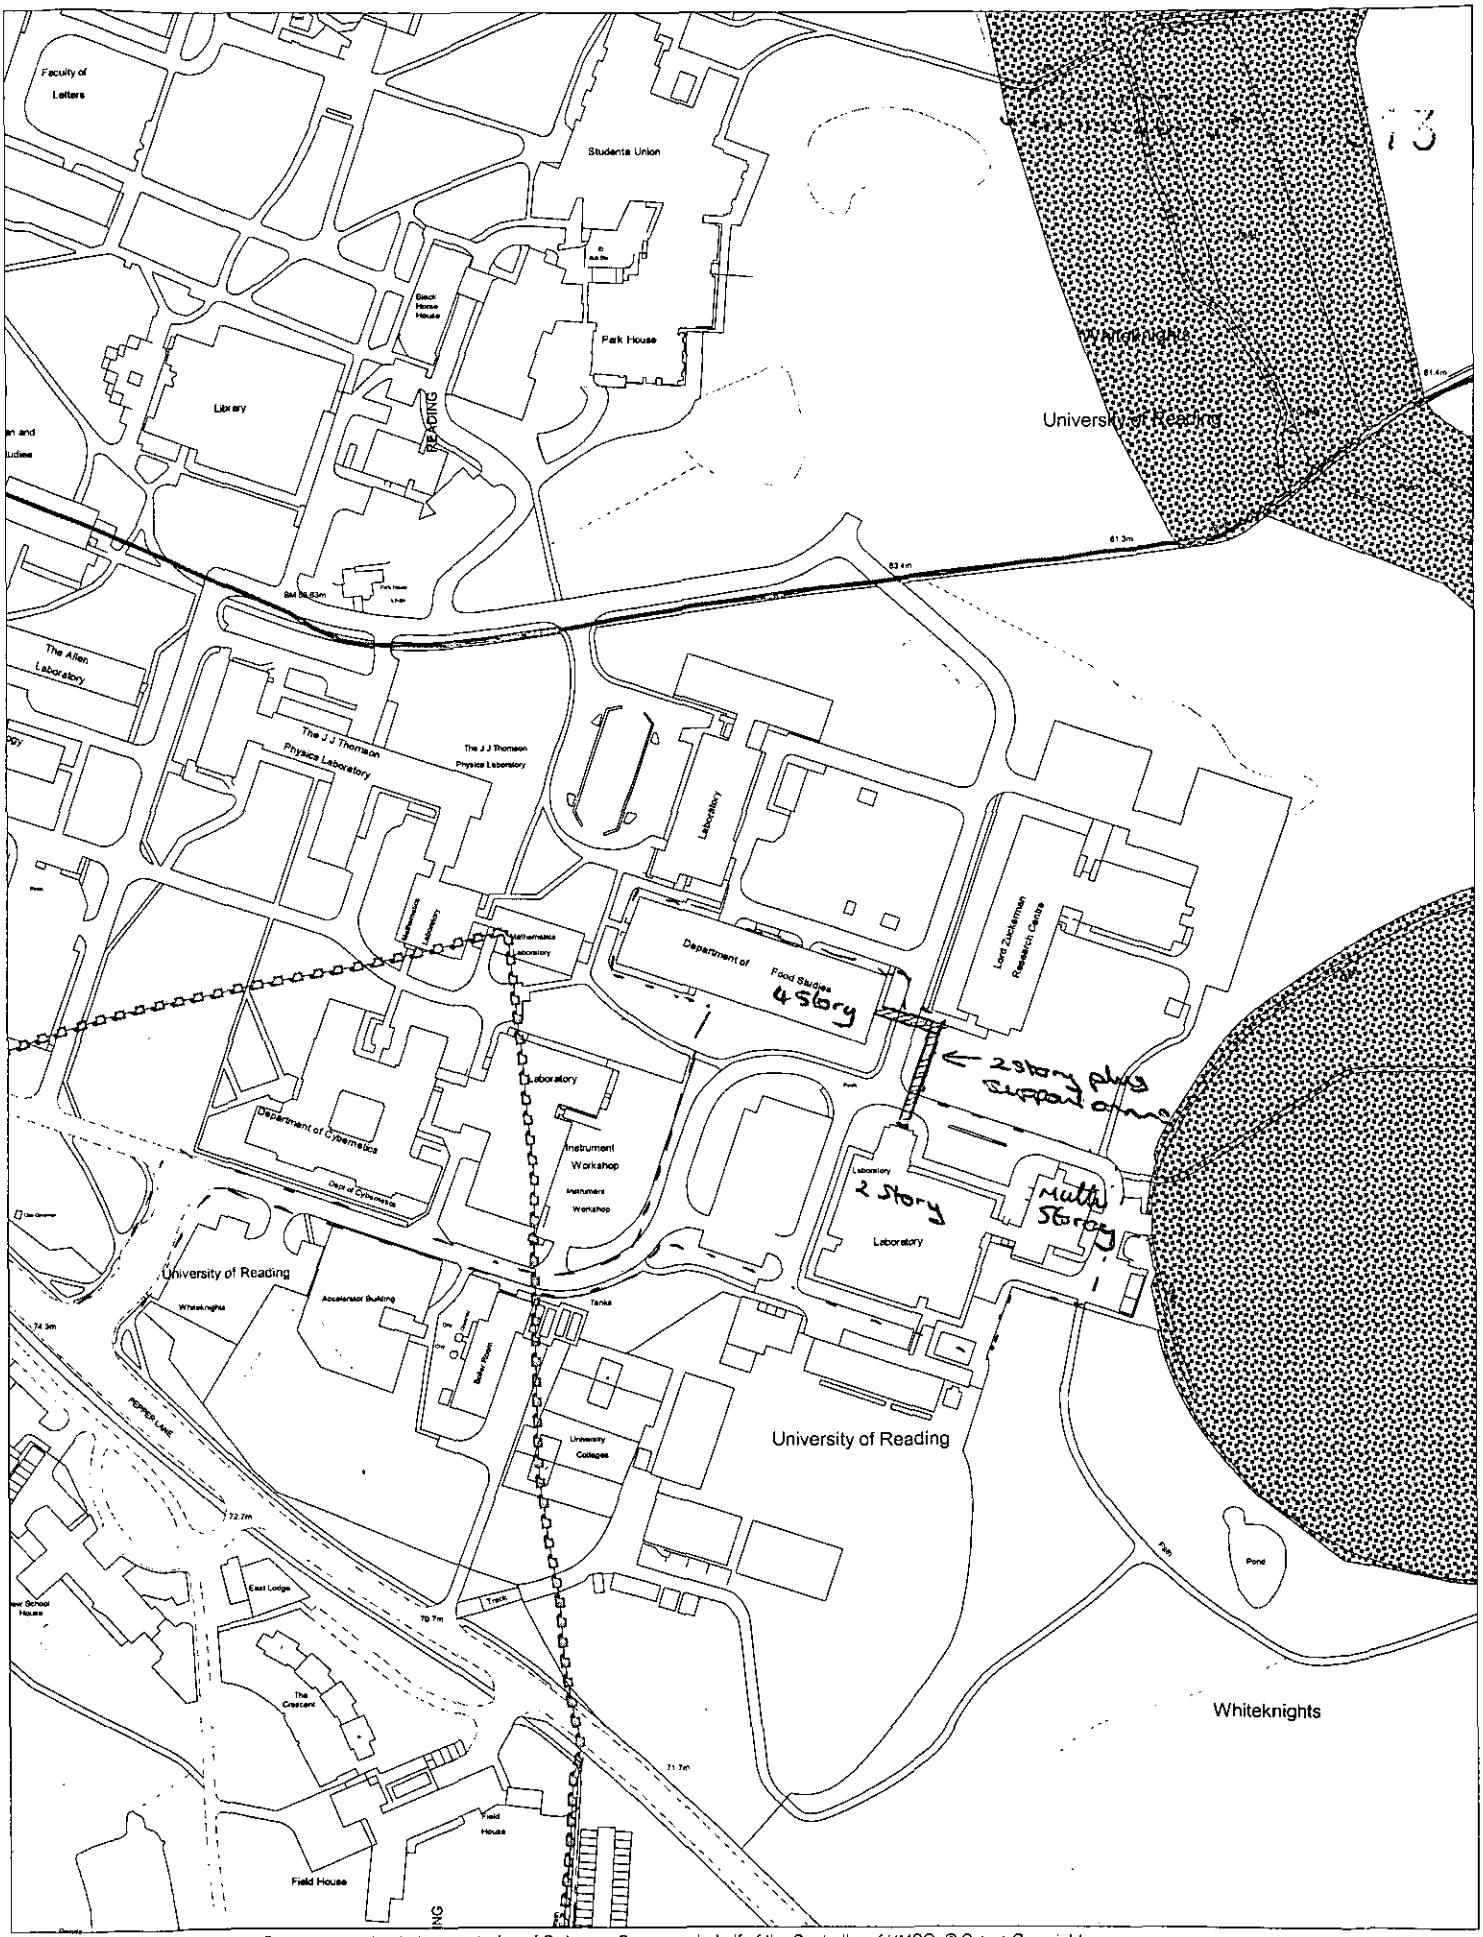

Your application may be refused. The reason will be listed on the Decision Notice.

WHAT HAPPENS IF THE APPLICATION IS REFUSED ?

You have the right to appeal against the refusal to the Secretary of State, but you have to do that within six months. Appeals can be dealt with by written representations by both sides, or by a Public Inquiry.
You may ask the Planning Officer whether an amended application would be more likely to receive planning permission.
