COMMENTS:

I am objecting this planning permission.

The area where this proposed site is, is often full of wildlife and this can be observed daily on walking along the footpath. Wildlife seen include deers, badgers and not to mention the various birds.

Arborfield dhas been exposed to vast housing developments in the past 6 years. Having lived here for over 20, I have only seen 1 extra school built and no more doctors for local people. No more shops or pubs.

This is not what this village needs.
