COMMENTS:

I object to the proposed housing development in our area. The neighbourhood is already experiencing significant challenges due to increased traffic congestion and reduced green spaces. This new development will only worsen the situation. Currently, commuting to work or accessing major roads like the M routes takes far longer than it used to what once was a 20-minute journey now often exceeds an hour. Adding more houses will intensify traffic, increase pollution, and further degrade the environment. Moreover, our local infrastructure including schools, healthcare services, and public transport is already stretched thin. The loss of greenery will not only affect local wildlife but also diminish the quality of life for residents who rely on these spaces for recreation and mental well-being. For these reasons, I strongly urge you to reconsider and reject this application.
