Site Address

162A Nine Mile Ride
Finchampstead
RG40 4JA

My client is looking to build a detached garage to the front of his property.
The current site has the whole front area gravelled for parking (see fig 1)

Fig 1

There are other properties within this area of the Nine Mile Ride that have detached garages to the front of their properties: Numbers 175, 162 & 174.

In addition, more recent detached garages have been approved at 310 and 304A

Our design has been based on number 310 with the roof height angle reduce to minimise the appearance on the streetscene in additional if required additional planting could be placed between the existing 2.0m front fence and proposed garage.

The site levels drops away from the highway as indicated that will minimise any streetscene impact.
