COMMENTS:

The infrastructure around Shinfield cannot support more houses. It's hard to get into desired schools less than 0.5 miles away, this will only add more pressure on these services. The roads also cannot handle the traffic, it takes far too long to get in and out of Shinfield during rush hour and that's with post Covid working from home practices. More houses will intensify all of this and change Shinfield from a lovely community to a huge housing estate not fit for purpose.
