COMMENTS:

I have lived my current house with my family for over 20 years and everytime I set out from my home there is another area of green being dug up for houses! How many houses does the Swallowfield area have to accommodate until it stops - I guess when we have been absorbed by Reading!!

All these houses need the new houses need to be serviced - The roads are congested making it unsafe to go for a walk or ride a horse , the doctors surgery is swamped and flooding in the area is getting worse.

Enough is enough
