

PLANNING REF : 261012

I have no objection to the plans submitted but would ask that during the course of construction of the carport and hardstanding both you and the Building Inspector ensure that my brick wall that forms the boundary between our 2 properties and is a main wall of a bedroom and boiler room in my bungalow is not damaged. Please protect the structural integrity of this wall is not undermined in any way and that no part of the carport is attached to or overhangs my property. Also, there is a water drainage pipe that runs from the corner of my property underground to Mr Miller's drain passing right under the proposed hardstanding which I am anxious should not be damaged during the excavation of the hardstanding. Thank you.

PROPERTY ADDRESS : 2 Wulwyn Side
: Linkway, Crowthorne, Berkshire
: RG45 6JB
