COMMENTS:

I object to the development proposed for the following reasons:-
- the area is not serviced by public transport and therefore will increase the amount of road traffic in an already busy area
- there are few, if not any, services such as doctors, shops, schools but importantly, what services there are, are at full capacity
- the development proposed is not compliant with the local plan for Wokingham nor the Finchampstead Neighbourhood Development plan (cp1, cp3, cp4, cp6 & cp9)
