London Road, Twyford, Wokingham RG10 9HA

We are seeking approval via a section 73 application to alter the design and height of the proposed roof, the increase of roof will reflect an additional 350mm from the approved design. This will allow the design to accommodate the required internal voids for services such as ducting for the MVHR, plumbing, electrics and the relevant space allowance of other services. Furthermore, the internal door access to the first floor bathroom and unit arrangement has been altered to suit.

Thank you kindly

HAC Designs Ltd
