COMMENTS:

I wish to object on the same argument that I used last time. This application has been refused before. I see no real change or benefit to the local community in this new application. Barkham Road is saturated with traffic at peak times of the day - pedestrians have no safe place to cross until you reach the crossing near Molly Millars Lane - reducing the parking at the pub will just turn into another hazard. I hope the council has the courage of their convictions and keep refusing these applications.
