COMMENTS:

These minor amendments have done little or nothing to address my concerns about this application and its forerunner 213400.

My previous comments still stand, although, for the avoidance of doubt, I will reiterate some here.

The WBC adopted plan still remains extant to 2026, it hasn't gone away.

This development is not earmarked for additional housing in the local plan from 2010, and neither is it in the latest update. It is not required and should be rejected.
