COMMENTS:

I wish to formally object to the proposed traveller site located close to my property on planning and environmental grounds.

My objection is based on the suitability of the location rather than on the occupants themselves. The proposed site raises concerns regarding increased traffic on local roads that are already narrow and unsuitable for higher vehicle volumes, particularly larger vehicles. This may pose safety risks for pedestrians, cyclists, and other road users.

Additionally, the area currently lacks adequate infrastructure and services to support further development, including drainage, waste management, and access to public services. There is also concern that the development may negatively impact local amenity, including noise levels and privacy.

The proximity of the site to existing residential properties may result in a loss of residential amenity due to increased activity and vehicle movements. Furthermore, the site's location may place additional pressure on local schools, healthcare services, and public transport, which are already operating at or near capacity.

I respectfully request that the planning authority carefully consider whether this location is appropriate and whether alternative sites with better access to infrastructure and services could be explored.

Thank you for considering my comments as part of the planning process
