DATE SUBMITTED : 15/01/2026

COMMENTS:

The reasons for objection are numerous - the plan is not sound. Key points as follows:

Complete lack of Infrastructure to support the significant increase in traffic on already overwhelmed roads, safely.

Services - even basic such as water provision and sewage; there is insufficient planning to support the extent of the proposed development.

Local impact - there are several conservation and agricultural areas which are being at best negatively impacted and at worst destroyed. Given the recent huge investment at Arborfield Green, and the lack of core infrastructure connections when compared to alternative sites in Twyford, this proposal has always been, and continues to be inappropriate and unnecessary.
