COMMENTS:

Please consider traffic calming with at a minimum a pedestrian crossing to allow safe movement to school and the country park by foot.

Another playground aimed at u8s is not needed. Please consider what the village actually needs for the younger generation and plan accordingly (pump track, indoor sports hall etc,,,))

Consider parking, there needs to be enough for those living in the homes and visitors.

Services - gps are over flowing and this will add to the pressure

- 'what options are there to support this?
