COMMENTS:

I am the person who raised concern about this as there was no planning permission in place when the raised decking has been put up so no consultation with us as direct neighbours

My concern was and is that if any member of the family or any of their visitors to house no 14 is standing on the decking close to our fence they can see into our garden fully and we can see half of their body which isn't right, we have two small children and feel like our privacy has been compromised

We would like the decking to be lowered and higher fence to be put up so this doesn't happen, we don't want the fence to be any higher than the higher fence that the neighbours put up alongside the side of their house a few months ago as if it is any higher it will affect the light in our garden

I hope this makes sense but if not please do get in touch and I can explain further or please arrange visit for you to see yourself the difficulty we are experiencing

Thank you Lenka Hlavacova
