APPRAISAL

Site Description:

The application site is located on a small residential cul-de-sac, on Dowles Green within the major development location of Wokingham. The existing building is a semi-detached property.

Principle of Development:

The National Planning Policy Framework has an underlying presumption in favour of sustainable development which is carried through to the local Development Plan. The Managing Development Delivery Local Plan Policy CC01 states that planning applications that accord with the policies in the Development Plan for Wokingham Borough will be approved without delay, unless material considerations indicate otherwise.

The site is located within settlement limits, within the major development of Wokingham and as such the development should be acceptable providing that it complies with the principles stated in the Core Strategy.

Character of the Area:

CP1 of the Core Strategy requires the proposed garage conversion to maintain or enhance the high quality of design.

CP3 of the Core Strategy requires the proposed garage conversion to be of an appropriate scale, mass, built form, height, materials and character to the area together with a high quality of design.

The proposed garage conversion poses no detrimental harm to the character of the area as the conversion will form the visual appearance of a subservient addition to the house which positively interacts with the street scene.

Neighbouring Amenity:

Policy CP3 says the proposed garage conversion should not have any detriment to the amenities of adjoining land users including open spaces or occupiers' quality of life.

Overlooking:

The proposed garage conversion would not introduce a harmful outlook across any neighbouring properties and therefore there are no concerns with regards to overlooking or any loss of privacy.

Loss of Light:

The proposed garage conversion would be aligned with the neighbouring property garage, therefore there are no concerns raised with regards to loss of light.

Overbearing:

The proposed garage conversion would be aligned with the neighbouring property garage, therefore no concerns are raised with regards to loss of light.

Highway Access and Parking Provision:

The application retains the front driveway which provides sufficient off-street parking for the host property.

Amenity Space:

The proposed garage conversion would not adversely harm the usability of the site's rear amenity space for the current and future occupiers.

Conclusion:

In conclusion, the proposed garage conversion would not detrimentally harm the character and appearance of the area, would not harm neighbouring amenity nor highway safety. It is compliant with CP1 and CP3 of the Core Strategy as well as the provisions of the Borough Design Guide. Accordingly, it is recommended for approval.

Community Infrastructure Levy (CIL):

When planning permission is granted for a development that is CIL liable, the Council will issue a liability notice as soon as practicable after the day on which the planning permission first permits development. Completing the assumption of liability notice is a statutory requirement to be completed for all CIL liable applications.

The Public Sector Equality Duty (Equality Act 2010): In determining this application the Council is required to have due regard to its obligations under the Equality Act 2010. The key equalities protected characteristics include age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation. There is no indication or evidence (including from consultation on the application) that persons with protected characteristics as identified by the Act have or will have different needs, experiences, issues and priorities in relation to this particular planning application and there would be no significant adverse impacts as a result of the development.
