Note the TTRO for footpath 5 ended on 28 February 2026 and a fresh TTRO will be required for any diversions or closures after that date. You are reminded of the recording and reporting requirements of the District License in respect of Great Crested Newts: an Authorised Developer and Compensation Provider is required to provide Activities Records to the Licensee, the Delivery Partner and the Compensation Partner as appropriate, in a timely fashion to allow them to submit the Annual Report. The Activities Records are to be made available for inspection to Natural England at any reasonable time. While Bracknell's concerns about routing construction traffic via Waterloo Road are noted, Waterloo Road is an Adopted Highway and it would not be reasonable to preclude its use in conjunction with William Heelas Way, particularly given that William Heelas Way also provides direct access to a primary school and residential areas. The levels of traffic generated are not considered to be so significant as to cause significant additional harm.	28/07/2026
