COMMENTS:

The proposed new padel courts will be a fantastic addition to the mix of amenities in the area. It is a growing sport, and is more accessible for most people than traditional racquet sports such as tennis or squash. It has a strong social element, and so helps to counter the growing problem of isolation and loneliness in our community,
Improving wellbeing. I currently use the courts at Bracknell, but these are over subscribed. I would use the new courts in Sonning instead.
