COMMENTS:

I have concerns regarding this development regarding noise and capacity of the infrastructure in wargrave to cope with even more people moving into the village. Today it is very difficult to get a local GP appointment, averaging a wait time of nearly two weeks. Our schools are at breaking point with the class size increasing year on year.

From a personal point of view, this development will impaire my view, increase noise to the rear of my dwelling. Both will also affect the value and sell-ability of my house.

Lastly we have an abundance of wildlife in that area that will be significantly reduced if this application goes ahead.
