COMMENTS:

Having viewed the plans and undertaken a visit, I note that all proposed works have already been completed, prior to planning permission being granted.

No. 52 has been linked to No. 50, obviously with out permission.

There are no other Link Detached Properties in the Road. Most out of Character.

Windows have bee installed that are not indicated on any proposed plans.

Fences far higher than anything else in the Private Section of Oatlands Road, have been installed on both boundary sides.

I would also note that considerable damage has already been caused by construction traffic associated with the project, to the Private Section of Oatlands Road.
