COMMENTS:

I object to the proposed footpath for privacy, safety and security reasons.

The path will be 0.9m from our house, where there is no physical boundary. Path users would have direct visibility into our personal space and rooms.

The path width is 1.7m as it runs parallel to our property which is insufficient to build a compliant and safe path. There is no space for boundary treatment, a defensible space cannot be integrated as recommended by TVP. The path as shown on the plans cannot be constructed in compliance to building regulations.

The proposed path needs to be withdrawn from the development plans for safety, security and privacy reasons.
