COMMENTS:

I object strongly to the bridge over the motorway. This will increase congestion, even with an extra carriageway, on Lower Earley Way, and potentially cause problems in other parts of Earley. The bridge is an accident waiting to happen, with the potential increased traffic it will cause, feeding onto an already overcrowded road. If this is a garden village, the amount of traffic should be reduced, so the bridge will not be needed! Why should the bridge cause problems and congestion in parts of Earley, when Earley itself gets no recompense from the proposed development?

IF the bridge were to be constructed, traffic lights on the roundabout it enters would seem the only way of making traffic going in all directions able to move.
