COMMENTS:

Overall I think the design of the houses look nice and will encourage new people to move to the area encouraging investment in local services. I would have preferred to see a number closer to 20 rather 40 and hope that the approval requires a slight reduction. Although this area is not allocated in the NDP for building it is also not protected land and seems the best spot in the village to develop. Having a young family it is encouraging to see an opportunity for a community to expand in such a lovely setting. All opinions are my own and not reflective of any associated companies or bodies I am member of.
