COMMENTS:

Objecting to the proposed change of use to a fuel oil storage and distribution centre, due to proposed location next to Charvil lakes which is an area for wildlife. What precautions would be put in place to protect the lakes if there was an oil leak or flooding ?

I feel that the area would be better placed as a paying car park for the commuters who use Twyford station. The hard standing is already in place and could over time be added to to introduce a small multistorey car park.
