

H&S Duty of Care Photo Report - #1

Norway Maple at 12 Denton Road, Wokingham RG40 2DX

T1 Norway Maple – garden side view. Roadside view.

This tree straddles the boundary with approximately 60% of the stem on the garden side and 40% on the access road side.

Large patches of necrotic bark and decay at the main union and scaffold branches.

The necrotic bark appears to be mainly on the upper (tension) side with enough cambium present on the underside providing enough nutrients to keep the canopy alive.
