COMMENTS:

It is good that thought is being given to provide housing for vulnerable adults.

What consideration has been given to the need for adequate parking space for inhabitants and carers? The demolition of the garage and the side extension will mean there will probably be space on the drive for only one vehicle. If there is a likelihood of more than one vehicle needing to be parked for long periods, it must be noted that the road is a very busy one at school drop-off and pick-up times and often has traffic queuing to go up or down it.
