COMMENTS:

I would respectfully request that:

Throughout the duration of the building works the front of the property and its immediate vicinity be kept in as clean and tidy state as possible, this includes but is not limited to:

- ensuring that skips are kept netted at all times to prevent debris being blown around the neighbourhood.
- ensuring any building waste is disposed of in an appropriate manner as quickly as is practicable.
- ensuring the roadway and pathway adjacent to, and in proximity to the property be kept clear of any hazards and debris including any nails, screws or other sharp objects which may be dropped inadvertently or otherwise by trade persons undertaking the building works. Thereby avoiding damage to the tyres of passing vehicles.

With regards the proposed extension itself, I would respectfully request that:

Where reasonably possible, any build materials used on the exterior of the front elevation match those of the existing structure, in particular with regards brickwork and tiles.
